Dear Sir or Madam

**A142 Ely Road, Sutton and A142 Sutton Bypass
Carriageway resurfacing works**

The first phase of works is due to start on the A142 Ely Road, Sutton, on Monday 5 July 2010. Works will involve extensive carriageway resurfacing by planing off existing, then resurfacing the carriageway, and repairing cracks below the surface between A142 junction with The Slade, Witcham and the Sutton/Elean Business Park roundabout.

The work is expected to take six nights to complete and will be carried out between 1900 and 0600 hours. The works are being undertaken under a road closure to through traffic. Residents living within the closed area will have access to their properties, but will have to be mindful of instructions given by the traffic management staff. There will be times during the works when construction will mean that vehicular access to properties will be temporarily prevented. This will be kept to a minimum and if residents can liaise with workforce disruption can be minimized. The diversion for through traffic will be via A1421 Haddenham crossroads at Witcham Toll – A1123 – Earith Bridge – B1381 Sutton – A142 Sutton roundabout and vice versa.

The second phase of the works will commence on the A142 Sutton Bypass on Wednesday 14 July. Works will also involve planing off the existing carriageway surface then resurfacing the carriageway between the A142 Sutton roundabout and the A142 Mepal Village junction.

The work is expected to take four nights to complete and will be carried out between 1900 and 0600 hours. The works are being undertaken under a road closure to through traffic. The diversion route for through traffic will be via B1381 from Sutton roundabout – Earith Bridge – A1123 – A141 Huntingdon roundabout Chatteris – A142 – Mepal and vice versa.
